EDUCATION

Course	College/University	Year	CGPA/%
B.Tech Engineering Physics	Delhi Technological University	2021-25	6.8
Intermediate/+2	Himalaya Public Sr Sec School	2020-21	93.8
10th Class	Himalaya Public Sr Sec School	2018-19	94.75

WORK EXPERIENCE

- **Software Developer Intern | Blozum** [Sept'23-Oct'23]
 - Developed chatbot interface, using OpenAI APIs
 - Developed 15+ reusable components, speeding development process
 - Development technologies: AstroJS, NextJS
- **Junior Developer Intern | Idigizen** [June'23-July'23]
 - Designed and developed a custom certificate generator enabling the user to easily convert their physical certificate templates to e-Certificates.
 - Canva like interface for certificate design, including upload of custom background and images.
 - Image overlay for different shapes and images for user design and placement.
 - API development and backend development to store the composite designed certificate for generation.
 - Development technologies: React.js , Node.js and SQL
- **Web Developer Intern | MetaDev** [Apr'23-June'23]
 - Developing professional user-facing web applications for client companies driving 25% increased digital experiences while in partnership with our organization.
 - Created a library of 20+ reusable JavaScript components using **TypeScript** and **NextJS**; provided a stable foundation for faster development and saved 20+ hours per week for the engineering team
- **Web Developer | Fresources** [Team Project]
 - a front-end developer at Fresources, a student-led startup community, we led to three iterations of the Web Dev project, resulting in the highly advanced V3 release. Implemented user liking, an events page, and leveraged **TypeScript** for typesafe reusable components.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, C++, Python, Java, Rust
- **Tools & Frameworks:** React, NextJS, Spring Boot, Spring Security, MongoDB, GraphQL, Google Cloud, Redis,

PROJECTS

- **Peer-to-Peer Private ChatAPP** <https://blithe-chatapp.vercel.app>
 - A peer-to-peer instant **real-time messaging application** with user authentication, enabling seamless user search, friend requests, and efficient communication, can manage 2K+ users at once.
 - Ensured a secure and scalable messaging application utilizing **Redis** as the database, **TypeScript** for type-safe components, and integrating **Google Authentication** for protecting sensitive routes.
 - Leveraged **PusherJS** to subscribe to real-time updates
- **AI Image generator | AI-ImageX** <https://image-genx-ai.vercel.app/>
 - **AI-ImageX:** Leveraged **OpenAI's Dall-E model** for generating and sharing captivating AI-generated images, powered by a robust database for seamless storage and retrieval.
- **Blog App** <https://divanshublog.vercel.app/>
 - Developed a modern Blog App leveraging **GraphQL** and **GraphCMS** to empower administrators with effortless content management and engage users through commenting functionality.

Achievements

- **Walmart Sparkathon** Walmart Global Tech
 - Achieved Grand Finale selection from a pool of 2700+ candidates, including prestigious universities (IITs, BITS, IIITs). Top 8 team presenting groundbreaking ideas to Walmart Global Tech during Grand Jury session.
- **HackMSIT GDSC** Google Developer Student Club, MSIT, Delhi
 - Won First Prize in this hackathon. We worked on a product aimed at helping vendors connect with Home-makers for basic grocery needs.
- **DTU-IIF Incubation** DTU-Innovation and Incubation Foundation
 - Presented a startup idea, so as to provide a software solution to businesses and to streamline their logistical operations. Awarded a Letter Of Intent ensuring that DTU-IIF will provide us monetary and other support wherever required
